## Metis Tactile Learning Kit \$129.95 Each

There are many different learning strategies that are being used in today's classroom. Teachers are finding that traditional classroom environments are a big obstacle to some students. These students are responding to tactile learning being added to the classroom. Tactile learners, learn primarily through the sense of touch and through hands-on activities.

We have filled this kit with Metis objects that students are able to physically touch. Touching the beaver's fur or hearing the sound that the spoons make will help the tactile learners in your classroom understand and retain knowledge. Each kit comes with a set of educational cards for the students to learn about each object.

## HOW TO INSTALL Floor decals

1. Thoroughly clean the floor area chosen for the floor decals
2. Use sharp scissors for cutting out each of the decals
3. Place the decals on the floor and create the entire layout
4. Starting at one end off the decal ensuring air bubbles are not trapped, peel the backing of the decals and slowly press onto the floor.
5. Use a soft cloth or any nonmarking/scratching material to smooth out any wrinkles.
6. These decals are removable and reusable so you can create a new layout or move to another location.

Only floor wax is recommended for use on our sensory pathways for permanent installations. Floor seal, finish or coating may contain chemicals that might damage your path.
